Environment Management Policy

Absolute Clean Energy Public Company Limited (the "Company") has established an Environmental Management Policy applicable to the Company and its subsidiaries (the "Group"), focusing on fostering care for and giving importance to the environment, as well as promoting environmental awareness and responsibility among all employees of the Group, as follows:

1. Promote electricity generation from renewable and/or clean energy sources, and develop the capacity to produce and utilize renewable and/or clean energy using appropriate, environmentally friendly technologies to reduce impacts on climate change.
2. Strictly comply with all relevant laws and regulations.
3. Establish measures to prevent and mitigate environmental impacts in accordance with relevant laws and regulations.
4. Control pollution at the source while continuously improving environmental management systems and seeking new technologies and innovations to enhance the efficiency of environmental management.
5. Communicate with executives and employees across the organization to ensure knowledge, understanding, and awareness of participating in environmental management.
6. Foster a sense of responsibility regarding the efficient and valuable use of resources among executives and employees throughout the organization.
7. Participate in various community activities that contribute to the creation and preservation of the environment in the local areas where the Group operates.

This policy shall be effective from February 28, 2022.
